On May 7, the commencement ceremony of Papua New Guinea NCDC Road Reconstruction Project was held. Peter O'Neill – Prime Minister of Papua New Guinea, Li Ruiyou – Chinese ambassador to Papua New Guinea, Zhang Liyong – commercial counselor of Chinese embassy in Papua New Guinea and Bai Yinzhan – Vice President of CHEC attended the ceremony and gave speeches. Besides, Mr. Peter O'Neill operated the excavator to break ground for laying a cornerstone for the project.

the national economic development. He believed that CHEC could perform the contract carefully and wished that the economic cooperation between China and Papua New Guinea could be closer and the friendship could last forever.

Peter O'Neill said after the NCDC Road Reconstruction Project was completed, it would effectively alleviate the traffic jam in the capital district of Papua New Guinea and would also create more employment opportunities and promote the local economic development. He, on behalf of the government of Papua New Guinea, affirmed the contribution of CHEC to the infrastructure construction of Papua New Guinea and placed high hopes on the project construction.

Papua New Guinea NCDC Road Reconstruction Project comprises of two sections, and the client is National Capital District Commission (NCDC). The first section is about 13km long, whose contract amount is about USD 90 million and construction period is 35 weeks. The second section is 8.7km long whose contract amount is about USD 50 million and construction period is 78 weeks. The commencement ceremony marks that the project formally entered the substantial implementation stage.
